

TO: Bitcoin Cash Ecosystem
FROM: Knuth
SUBJECT: **Monthly Progress Report - March [DELAYED]**

DATE: 03 30 2020
FILE: MPR

I. Financials

- | | |
|--|----------------|
| ▪ Official Knuth accounts: | Balance |
| qrlgfg2qkj3na2x9k7frvcmv06ljx5xlnuuwx95zfn | 0.07119295 BCH |

II. Activity Highlights

Software

- **Database Experimentation.** Series of experiments to analyze database's behaviour and response under extreme and/or edge conditions.

Business

- **Business Model.** Ideation, prototyping and design of business models.
- **Flipstarter Campaign.** Preparation of information package.

III. Activity Lowlights

Nothing to report.

IV. Major Contracts / Projects / Opportunities

- **Flipstarter Campaign.** Knuth was granted with a place to participate in the node implementation fundraising campaign organized by the Flipstarter group.

V. General

Software

- **New DB read-only mode.** An orthogonal mode that can be used in combination with any other existing mode. It provides important scaling capabilities on queries to the same database.
- Binary Logging as experimental and optional feature.
- Xversion message implementation as experimental feature.
- Code style improvements.
- General minor bug fixing.

Business

- **Information research and compilation.** To best represent Knuth's values and his commitment to the Bitcoin Cash ecosystem, we proceed with a detailed research and compilation of all available material regarding Knuth and its technical ancestors.

- Branding design and product identity.
- Definition of communication channels and user relationships.

VI. Community, Competition, Industry News, and Marketing Events

Nothing to report.

VII. Personnel

Operations

- Knuth defines its launching workgroup with focusing on two fronts: software development and business development. The team is integrated by Fernando Pelliccioni, Nicolás Cappabianca, and Leandro Di Marco.
- Total man hours for this month: 200.

VIII. Others

Nothing to report.
